

3Dog Garage Tour – 02/21/2026

By Diana Duffee

After many months of waiting we were given a date to tour 3Dog Garage. With snow melting and the sun out for the first time in a week I think everyone was ready for something interesting to do to get out of the house!

Our group was one of many that were to tour the garages at the same time on the same day. We had approximately 60 people in our group which was made up of a few Lehigh Valley Shelby Club members including, Dominic, Gary, Dan R and Diana, a few folks from Team Shelby and a lot of serious car friends. Jim Leader was kind enough to go out of his way to pick up Chuck Cantwell and bring him along. Chuck enjoys going to low key events like this where he is not asked to speak and just be able to hang out with like minded car people.

3Dog has two garages, one which has been converted into a fantastic restoration shop to have all of the cars torn down and restored in-house. There are three floor which has the shop and cars in the other two rooms on the first floor, antique cars on second floor and street rods on the third floor. Each floor has sitting areas and all sorts of interesting neon and regular old signs, airplanes and other things hanging from the ceiling. Almost more than the eyes can take in. In the second garage an amazing amount of Mustang and Ford race cars, Cobras, drag car, and true over load of neon signs and artwork on the walls and hanging from the ceiling. Both buildings are old factory building restored with nice details with the original beams in the second building in the ceiling and a polished concreted floor that looks so cool I want that done to our garage.

Our group took up a donation to give 3Dog as they state they except donations. They requested we make the donation to Children's Hospital of Philadelphia or Wounded Warrior which will be done. Our group was very generous with a total of \$860.00 donated.
