

July 25 – July 28, 2024  
The Ford GT 60<sup>th</sup> Reunion  
By Diana Duffee

The Ford GT 60<sup>th</sup> Reunion was held at Pitt Race in Pittsburgh July 25<sup>th</sup> through July 28<sup>th</sup>. This event was also part of the Vintage Race series.

Could not have asked for better weather Friday and Saturday, mid 80s with a nice breeze and low humidity. The track had lunch laps which are also charity laps. The charity laps gave people the opportunity to ride in a Ford GT around the track for a lap with a maximum speed of 70 mph but to be honest the pace car took us over that more than once. Actually saw the car shift into 7<sup>th</sup> gear! Friday there were only about 40-45 people in line for the charity laps so the second set of folks got to get an extra lap. On Saturday there were about 40 Ford GTs willing to participate in the charity laps and there were so many people signed up for laps it took 8 individual laps to handle all of them. Friday also had time slotted to allow only the Ford GTs to get out on the track without any passing for about 6 laps. Get opportunity to take someone out, let me get a feel for the track and video it they chose. Saturday had time slotted for only the Ford GTs to do 'hot laps' (no passengers and helmets a must) which allowed passing in the straights.

What an awesome track with three up high blind corners and a couple of sweeping up hills.

As you will see in the pictures they tried to take a group photo but there were so many cars I suspect that the ones at the top of the hill are not in the pro's pictures. I was able to climb up onto one of the towers and take a few pictures so I did get them all but not all in one shot.

Great weekend, hung out with friends and enjoyed putting our 2020 Ford GT on the track. It now has 205 miles on it!!!

Enjoy the pictures.
