

Tour Dave Markel's Garages

October 25, 2025

By Diana Duffee

Meeting in Skippack on a beautiful fall day with the sun out bright warming up the chilly start to the day, thirty-two of us gathered to go through a few of Dave Markel's garages in downtown Skippack.

The tour was designed to go through garages we did not go through when I arranged the last tour. Started out at garage 1 then garage 2 then across the street for two more garages, break for lunch then met at Intersect garage which is like three garages in one to finish up the afternoon.

When we were in the last garage Dave showed up and spent time talking with many of the folks on the tour.

Dave has such an incredible collection of cars and motorcycles. To see vehicles that are in such limited production and some that are the only one known to be left.

See a few pictures from today.
