

2025 Snakes On The Mountain By Diana Duffee

After a year of planning and getting special guest speakers it was time for the 2025 Snakes on the Mountain on 06/14/25 hosted by Dennis and Joyce Blocker. Guest speakers were Greg Kolasa, Chuck Cantwell and Howard Pardee.

Howard told some stories of Shelbys that had interesting history such as ones that were stolen and later found.

Greg spoke about the Hertz Shelbys and how Ford linked up with Hertz.

Bill Carron did a Q&A with Chuck asking him questions that would give people an idea of how Chuck ending up being employed by Shelby and what role he played.

Mario Andretti was invited and to everyone's pleasant surprise he did attend. He was kind enough to take the time to have his picture taken with many of the attendees. We will forgive him for bringing a Corvette!

With it being a rainy day there was still an awesome turn out.

Shelby/Ford took the trophy this year with 47 total cars. Vipers 17 and Farraris 3. Tom was the only brave soul to drive his Ford GT from Allentown.

An auction was also done with support a couple of charities. Some of the items were Ford GT crew t-shirt, Porsche t-shirt, a Shelby coin, some limited-edition posters, model cars no longer in production, a good number of items that all sold with the auction ending with a canvas print done by Camillo.

The weather may not have been ideal but everyone that attended had a good time.
